

UP-9104 (Plastic Grate for Single Drum Spill Pallet)

- Manufactured with high-performance ESCR 180 HDPE for exceptional chemical resistance and durability
- The structural integrity is validated through BV-certified load testing when used with the UP-2101 base
- Specifically engineered for the safe containment of non-hazardous liquids in indoor environments
- Features an open-grid design to ensure instant leak visibility and easy routine inspections
- Utilizes a high-contrast black and yellow color scheme to enhance workplace safety and visibility
- Provides a durable, low-maintenance solution for long-term storage of lubricants and coolants

Technical Data Sheet

Brand	UPQUARK
Model	UP-9104
Dimensions L x W x H cm (in.)	60.5 x 60.5 x 4.8 (23.8 x 23.8 x 1.9")
Color	Black
Material	High-Density Polyethylene (HDPE)
Weight kg(lb)	2.2 (4.9)
Style	Spill Pallet Accessories
